30 DAYS OF CODE (Frontend)

DAY 0: A Tribute Page

Description

The simplest website you can make as a beginner is a tribute page of someone you admire in your life.. Make a webpage writing about that person adding his/her image. On the top of the webpage, add the image and name of the person and below that give layout for the rest of the details. You can use paragraphs, lists, links, images with CSS to give it a decent look. Add a suitable background color and font style on your webpage. Most of the parts you can make using HTML but to give it a better look using a bit of CSS.
